**About The Construction Index:** The Construction Index magazine is a monthly magazine for contractors, plant hirers, and other companies in the construction supply chain, with a circulation of more than 39,000. The Construction Index is the leading online information source for the construction & building industry. It is free to access, with no subscription or registration pay wall. The Construction Index websites attract more than 14 million global visitors, viewing more than 30 million pages of construction-related information. The Construction Index also features the UK's largest construction search engine facility, providing details of products and services from thousands of construction companies from across the UK. Our daily email newsletters have more than 29,984 daily subscribers & 25,451 for the weekly plant news bulletin.
